Data Design and Data Collection

Digital Methods

Julie Hvidsteen

29th of April 2025

UNIVERSITY OF COPENHAGEN

Agenda

1. Check-In slides

- We go over the slides. Each group present their slide

45 min

2. General feedback for the milestones

3. Individual feedback for the groups

- Go around the groups and give feedback to the milestone assignment.

45 min

4. Work om your project

- Based on your work above, revisit your RQ. Are there any **adjustments** you need to make, to your project?

45 min

To do list

TUESDAY

1) Feedback on milestone 1
2) Designing data collection and sampling strategy
3) Initial testing of data collection feasibility

General feedback for Milestone 1

You are on the right track!

- Narrow and clarify the research question
  - Define key concepts clearly
  - Avoid unnecessary or confusing phrasing
  - Let existing research guide how you sharpen your focus
- Strengthen literature review
  - Use existing studies to justify your research topic
  - Literature helps define relevance and narrow the scope
- Justify your choice of data source - why the site fits your research
  - If focusing on a specific location, justify why.
- Be aware of technical and access limitations with the data source

Data collection

Data integration models

How different forms of data relate to one another

Integreted

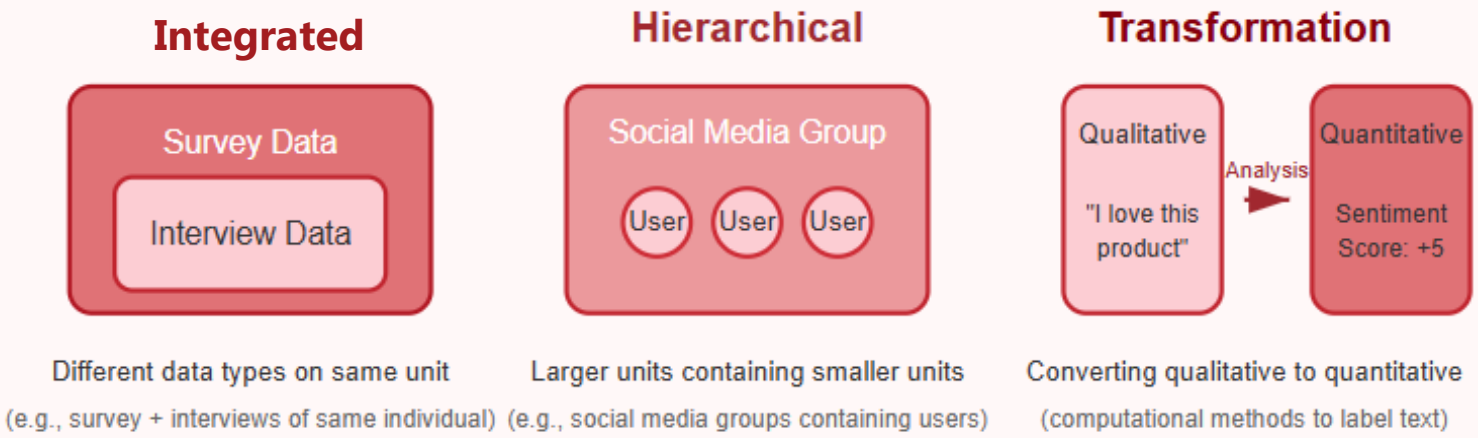
Different types of data on the same unite (e.g., survey + interviews of same individual)

Hierarchical/Nested

Larger units containing smaller units (e.g., social media groups containing users)

Transformation

Converting qualitative to quantitative data through analysis (computational methods to label text to get a count variable)



Milestone 2

- **Milestone 2** – Friday, 2nd of May, 23:59, via email to TA (hsl448@sodas.ku.dk)
- Feedback – next seminar
- Submission should contain:
  1. Updated Research Question
  2. Data Collection Plan
  3. Preliminary Data Analysis Design

  Remember to book your supervision slot for Thursday – seminar hours are held as usual.
- Assignment 1, 1-2 pages
